

Deck of Cards API

Provides:

This API provides a deck of cards as the name implies.

Key Provisioning:

- No keys

Pain factor (*0=ezipz...5=nightmare*):

1

Quotas:

- None found.

The Good:

- It does what you want it to do.
- It's pretty clear and tells you what you can do with the API.
- It gives you everything you need about cards to make a game out of it.

The Bad:

- None to be seen so far!

The Ugly:

- None to be seen so far!
